

PRODUCT INFORMATION SHEET

Pneumatic ratchet 1/2"

Characteristic

- intended for heavy-duty works in vulcanization and automotive plants;
- ensures quick assembly and disassembly of threaded connections and components;
- left / right rotation switch;
- trigger lever allows smooth power and speed regulation;
- 360° rotary air outlet allows air to be directed away from the operator;
- lightweight housing and small dimensions ensure comfortable work;
- torque 61 Nm;
- air connection 1/2";
- working pressure 6.2 bar / 90 psi;
- air intake 142 l/min;
- rotation speed of 150 RPM.
