

PRODUCT INFORMATION SHEET

Electronic charger

Product description

High quality device for charging 6 V - 12 V batteries in motorcycles, passenger cars and vans, caravans, quads, motor boats, tractors and garden equipment.

Characteristics

- the charger is suitable for charging sulphuric, acid (WET) batteries;
- built-in ammeter allows for constant control of the charging process;
- maximum current 12 A;
- IP20 protection:
 - short circuit protection
 - against battery overcharging
 - reverse connection protection;
- fully automatic charging process (detection of the battery voltage);
- battery capacity 20-200 Ah;
- built-in 2 m rectifier cables;
- includes insulated alligator clips.
