

## PRODUCT INFORMATION SHEET

### TAUBER 4-way stretch protective trousers

#### Product description

TAUBER professional men's protective trousers are made of the highest quality materials. Strong weave ensures high durability. Standard 4-way stretch increases the elasticity of the trousers, which effect on great freedom of movement for the wearer. The reflective details are used to make it possible to increase work safety after dark. A large number of pockets affects the usability of the product and ensures that tools are always at hand. CORDURA reinforcements are used in the pockets and on the knees. An additional covered pocket has a secure zipper so that nothing can slip out or get damaged. They are adjustable with an internal elastic band in the middle of the waist. The trousers are available in a fashionable dark grey colour with blue accents and a wide range of sizes (from S to 3XL). They are designed for professionals. Perfect for production, construction, transport workers and car mechanics. They are ideal for service, installation and technical works.
