

## PRODUCT INFORMATION SHEET

### Capacitor jump starter 500A

#### Product description

Capacitor jump starter 500A based on ultra-capacitor technology. Inrush current of 500 A (1000 A at peak) makes it possible to start cars, motorcycles and small boats. The operating range of device from -40 to +65 degrees Celsius, no need for prior charging and short preparation time (approx. 120 seconds) make the device a very universal „helper” in situations of difficult start of the vehicle.

#### Characteristics

- current 500 A/1000A (peak);
- 12 V voltage for batteries;
- charging time: 120 s;
- Number of cycles: 10000;
- operating temperature range: -40 to 65 degrees Celsius;
- enables starting vehicles with lower voltage;
- set includes:
  - jump starter
  - 12 V jumper cables
  - user manual.
