

PRODUCT INFORMATION SHEET

Tool bag

Product description

Tool bag made of high quality 600D polyester, characterized by exceptional resistance to wear and potential damage. It ensures not only lightness and flexibility of the structure, but also effective protection against difficult weather conditions and the challenges associated with continuous use in the working environment. Completely optimised storage space with 29 specialised pockets for precise organisation and quick access to tools. Ergonomic arrangement of pockets designed for specificity of technical work, ensuring maximum use of available space.

Characteristics

- material: 600D polyester;
- shock-absorbing pad on the shoulder strap;
- the bottom is made of PE material;
- it has a customised fastening inside the bag;
- space for a business card inside the bag;
