

PRODUCT INFORMATION SHEET

Tripod

Product description

Compact, lightweight, folding, universal tripod with 1/4" mounting bracket. The telescopic design allows the arm to be extended from 14.5 to 62 cm with the unit mounted. Robust construction and durable materials, such as aluminium, allow the tripod to be used even under difficult conditions for many years. The end of the legs is made of non-slip ABS material to prevent the tripod from moving. The tripod has independently unfolding legs with a spring-loaded mechanism, activated by a button. The folded tripod, together with the mounted HT1E436 reflector, forms a uniform torch cylinder.

Characteristics

- Height when unfolded - 62 cm.
- Height when folded - 14.5 cm.
- Mounting bracket - 1/4".
- Material - Alu + ABS + PC.
- Adapted for mounting: reflector HT1E436.
