

PRODUCT INFORMATION SHEET

Arch pointed nose rotary burr G

Product description

Arch pointed nose rotary burr, type G. It is designed for metalworking of steel, aluminium, cast iron. In addition, it is suitable for working with plastics, ceramic tiles, stone and wood. It is perfect for machining and grinding. It is made of high-quality tungsten carbide, guaranteeing its resistance to intensive use. Precisely made edges of the burr enable quick and easy metalworking of various materials, which translates into efficiency and accuracy of work and minimising the risk of damage.

Characteristics

Type - G; Size of the working part - 10x20 mm; Shank - 6 mm; Rotational speed - 0-19000 RPM; Handle - cylindrical.
