

## PRODUCT INFORMATION SHEET

### ZIRLAU 3D safety glasses mirror tinted uni

#### Product description

ZIRLAU 3D safety glasses provide optimal eye protection, combining comfort with modern adjustment features. The frame and temples have non-slip elements made of TPE, which increases the stability of the glasses, and the soft TPE nose pad guarantees comfort even during prolonged use.

#### Characteristics

- lenses: polycarbonate, scratch-resistant, mirrored;
- frame: polycarbonate with non-slip TPE elements;
- nose pad: soft, adaptive, made of TPE;
- UV filter: type UL – protects against UV radiation and enables light signal detection without affecting color perception;
- lens marking: H UL 1.7 CT HMT 1 K CE, where:
  - H – manufacturer: HOEGERT,
  - UL – UV filter + light signal detection,
  - 1.7 – tint level: lightly tinted with mirror coating,
  - C – low energy impact resistance (45 m/s),
  - T – tested at temperatures from -5°C to +55°C,
  - HM – high mass impact resistance (500 g from 1.27 m),
  - 1 – optical class: suitable for prolonged use,
  - K – increased scratch resistance,
  - CE – EU certification compliance;
- standard compliance: EN ISO 16321-1 (replaces EN 166, specifies design, mechanical resistance, and optical requirements);
- adjustments: three-step temple length, two-step frame tilt angle;
- protective features: mirror coating reflecting sunlight.
