

PRODUCT INFORMATION SHEET

Torx Impact Socket 1/2", T20

Product description

Made from chrome-molybdenum steel, this tool is designed for the highest impact loads. The material is deformation resistant, impact resistant and durable with a low weight. Chromium ensures resistance to corrosion, oxidation and wear of the steel alloy. The design helps working in tight areas with a high tightening torque. The cold forging process has made the tool stronger, harder, and less plastic.

Characteristics

Torx bit size: T20. Drive size: 1/2". Material: CrMo steel, surface-oxidised, black.
