

PRODUCT INFORMATION SHEET

Hydraulic jack 2T, standard, 90mm - 340mm

Product description

This portable, compact low-profile hydraulic “frog” jack is designed for lifting loads of up to 2 tonnes to a maximum height of 340 mm.

With its heavy-duty construction and robust hydraulic cylinder, this automotive jack lifts a vehicle quickly and effortlessly, with minimal risk of accidental lowering.

Heavy-duty front transport rollers and rear swivel castors provide easy manoeuvrability and stable positioning anywhere.

An integrated overload valve prevents exceeds the maximum lifting capacity, contributing to extended service life. Constructed from robust steel with welds, the jack ensures durability even under intensive use.

Its lightweight design, compact dimensions and carrying handle make it ideal for transportation, for example, in a car boot.

Characteristics

- Minimum lifting height: 90 mm.
- Maximum lifting height: 340 mm.
- Maximum load capacity: 2000 kg.
- Weight: 10,7 kg.
