

PRODUCT INFORMATION SHEET

Hydraulic jack 3T, workshop, 85mm - 595mm

Product description

This robust and durable hydraulic “frog” jack is designed for lifting loads of up to 3,5 tonnes to a maximum height of 595 mm.

With its heavy-duty construction and robust dual-piston hydraulic cylinder, it lifts a vehicle quickly and effortlessly, with minimal risk of accidental lowering.

Additionally fitted with a foot-operated lever for the rapid lifting of the jack arm.

An automotive jack designed specifically for vehicles with a lowered suspension – it fits under sills as low as 85 mm.

Heavy-duty front transport rollers and rear swivel castors provide easy manoeuvrability and stable positioning anywhere.

An integrated overload valve prevents exceeds the maximum lifting capacity, contributing to extended service life.

Constructed from thick-walled steel with robust welds, the jack ensures durability even under intensive use.

Characteristics

- Minimum lifting height: 85 mm.
- Maximum lifting height: 595 mm.
- Maximum load capacity: 3500 kg.
- Weight: 48 kg.
